A Million Dollars For Edmonton

First Street Likely Site

Mammoth Departmental and Mail Order Business

Outside Capitalists Look Over Field for Establishment of Most Modern Institution in Dominion and Choose This City Because Railways Will Make It Best Distributing Center.

A huge, modern departmental store, which will be one of the largest and most up-to-date in America, is now in the contemplation stage for First Street, Edmonton, an engineer representing Vancouver and other capital being now in the city looking over the ground and preparing a report to present to those he represents.

It is stated that the Vancouver capitalists have had in mind the building of a large department store in one of the cities of the Canadian west, which will have all the features found in the latest institutions of the kind in New York, Chicago and Philadelphia. After carefully looking over the country, they picked on Edmonton as the spot where such a store would pay best, and now have their engineer here making what may probably prove to be preliminary arrangements for the construction of the building.

As near as can be learned, the edifice will be erected on First Street near Jasper, and upwards of a million dollars will be invested.

It is thought that with the opening of the two new transcontinental lines to the coast, and the building of branches and other roads to the north and west of the city, Edmonton presents a unique opportunity for such an establishment.

A mail order department on a larger scale than any yet operating in Canada will be one of the new features of the proposed store. When the railways are in contemplation and likely to be built, it is thought that the store will have more lines radiating out of it than either Toronto or Winnipeg, and the lines will serve a larger and richer country, and for this reason the prospects for mail order business, with the institution of a proper parcel post system, justifies the building of a store in Edmonton equal to, or larger than, any in the young.

YOUNG IRISH MOTHER LEAVES HER BABY IN MOOSE JAW DEPOT

Moose Jaw, Mar. 2.—At the sitting in which five witnesses, including Katie McCann, the mother of the dead baby, were examined, the inquest into the death of the newly born infant found in the checking room of the C. P. R. depot on the afternoon of Feb. 14 until today Katie McCann, the mother, is an Irish girl barely twenty years old, and this afternoon the witness stand told coroner Brown and the jury frankly and freely that she was employed in the hotel at Moose Jaw, a town on the Outlook branch, as kitchen girl and according to her own testimony gave birth to the child on Feb. 12. The affair was kept secret and on the day following she was taken to the hospital in a very weak condition told him the whole story. She stated that the child was taken home that it lived a short time and that she knew absolutely nothing of the cause of death.

Send Dibble To Henley

Toronto, Ont., Mar. 3.—That the Don Rowing Club will send Bob Dibble to England to row for the Diamond Sculls at Henley this year has been decided by the executive committee. Dibble will leave for England on May 16 and will be accompanied by a professional member of the Rowing Club. A shell has already been ordered in his honor, and the club is aiming, the famous English-oared thirteen forty.

Home Rule Announcement

London, March 3.—The second reading of the Home Rule for Ireland bill is to be debated upon next Monday in the house of commons. Premier Asquith announced today that he then would make a brief statement in the proposed concessions to Ulster.

THIRD DISTRICT LIBERAL MEETING TOMORROW NIGHT

Liberals of No. 3 district, comprising the northeast section of the city, will meet tomorrow night in the Transil hotel North Edmonton, for the purpose of effecting a local reorganization and listening to Hon. A. G. MacKay, Hon. Wilfrid Garfield and other speakers. The meeting will commence at eight o'clock and all liberals in that district are urged to be present.

FIRST 125 MILES ROUTE OF A. & C.W. DEFINITELY FIXED

Goes East of Original Survey and Farther From Athabasca Line.

BIG INFUX OF SETTLERS EXPECTED THIS SUMMER

Two Hundred Men Clearing Right of Way; Thirty Miles Graded.

Remarkable progress has been made on the preliminary work on the Alberta and Great Waterways railway, indicating that the statement recently made to the Capital by J. D. McArthur, contractor for the line, that steel would be at Lac la Pline by the end of this year, will be made good if men and money can do it.

The detailed route for the first 125 miles of the road has been filed with the provincial department of railways, 200 men are at work clearing the right of way, 30 miles of grading has been completed, supplies have been taken in for the summer's work, steel is on the way and every possible preparation is being made for work to proceed without delay as soon as the frost is out of the ground.

The route is considerably north of the one proposed by the Rutherford government, and further from the Athabasca line of the Canadian Northern. It is expected that there will be a great influx of settlers this spring and summer, now that the route is definitely fixed.

The junction of the A. & C.W. with the E. D. & N. C. is two miles north of the Sturgeon River and ten miles north of the Athabasca line. The junction of the A. & C.W. with the E. D. & N. C. is two miles north of the Sturgeon River and ten miles north of the Athabasca line.

Board of Health will Notify C. P. R. Stock Yard Nuisance Must be Abated

Several very important matters were held with yesterday evening at the regular monthly meeting of the board of health, held in the civic building, at which all members of the board were present. Dr. Park being in the chair in brief the matters considered and the disposition of same are as follows:

Agreed to placard butcher shops and grocery stores against the practice of allowing dogs to run at large.

Decided to arrange, if possible, for building bylaw amendment compelling stock owners to take out permits.

Arranged for messenger service between the provincial laboratory and the office of Dr. Whitlaw.

Decided to notify C.P.R. officials that nuisances at south side stock yards must be abated.

Arranged for a meeting with the Separate School board to provide for medical inspection of Separate schools.

Extended scope of work now being done by Milk Inspector Graham.

Having considered the nuisance with which butchers and grocers have to contend daily, the board of health approved of the suggestion that placards be posted in all such stores, calling the attention of the public to the fact that it is a nuisance to allow dogs to run at large into these places of business. This decision has been reached with a view to assisting the owners of these stores in enforcing these sanitary regulations without the necessity of offending their customers. In all

most every grocery store and butcher shop there are food stuffs within the reach of the dogs and therefore an effort will be made in this direction to exclude all dogs from the stores.

Building Inspector N. A. McIvor was in attendance at the meeting, and discussed with the members of the board the advisability of having all stock owners take out licenses the same as if they were owners of buildings. The idea is that at present when it is not necessary to take out a permit for the erection of a shack, these are being built all over the city, and neither the building inspector nor the health department has any knowledge of the conditions until they run across them, usually indirectly. The matter was finally referred to the building inspector for the building bylaw that would give the building inspector the authority to issue licenses for shacks in future.

A messenger service in connection with the work of the health department was then taken up. The work of the provincial laboratory is increasing and as a result there are present delays in the transmission of samples from the department as well as from individual doctors. The view was expressed that if a messenger boy was kept on duty at the office of the medical health department in the city hall, samples for analysis at the laboratory could be taken with dispatch.

Daring Jack Rabbit Pays Penalty for Taking Morning Hop on Jasper Ave.

What with grey squirrels running over the roof of the Tegel hotel, chipmunks eating their way into the Imperial bank vault, black crows being caught in chicken-coops, and a bull mouse having been seen in the Groat Street Twenty-fourth street, one would be led to believe that Edmonton is fast becoming a veritable rookery. The latest acquisition to the animal life of the downtown district was captured this morning, in the shape of a "hure" jack rabbit, while bounding his way across Jasper avenue at Howard, shortly after 8 o'clock.

Fred Gibbons, a well known dog fancier and a member of the Kennel club, was enjoying a brisk walk down the main thoroughfare, accompanied by his famous pure bred terrier, "Hole to Jack," when he was startled to see the latter make a flying leap for the large white object crossing the road, and when mister dog had caught up with his prey, which he had in less time than it takes to tell, it was found that the victim of the assault was the aforementioned "Jack" and the proud terrier has been taking the rabbit around ever since, showing it to the public in general, and made a special point to show the Capital staff as it.

RIGHT TO SECURE REPARATION WHEN ABLE IS RESERVED

Sir Edward Grey Makes Pronouncement on Benton Killing Before the House—Would Welcome Any Steps Taken by United States, But Great Britain Cannot Demand Armed Intervention.

London, March 3.—The British government's view that no immediate action could be taken by it in connection with the deadlock over the investigation into the death at Juarez of William S. Benton was made plain today in the house of commons by Sir Edward Grey, the British foreign secretary. Sir Edward was, however, equally explicit in pointing out that if Great Britain failed to secure satisfaction through the United States, the British government reserved itself the right to secure reparation, whenever it was able to do so.

The promised pronouncement on the Mexican situation from the foreign secretary had been anxiously awaited. It was delivered before a keenly interested gathering of the members of the house of commons. Intense resentment had been displayed throughout the British Isles over what is regarded as the attempt on the part of General Carranza, the constitutional leader, to sow discord between England and the United States over the repeated delays in the investigation of the death of Benton.

MURDERER SNEERS WHEN JURY BRINGS VERDICT OF GUILTY

New York, March 3.—There was a sneer on the face of Orsato Sillitani, a gangster, last night, as he listened to the verdict of the jury in the first degree by a jury which tried him for killing Probation Trialman William Healey in Mulberry street, on the night of March 3, 1913. Charles Leare, an other constable and John Rizzo, a citizen were killed by the Italian a few seconds before he fired at Healey. The jury was out 36 minutes. The conviction of the man in 12 and his five prior convictions to his record.

Wilson's Policy Regarding Panama Canal Act Finding More Favor.

THORNTON WHO OPPOSED MEASURE SUPPORTS IT

Thought Matter Will Be Up for Action Within Two Weeks.

Washington, March 3.—Announcing his support of President Wilson's policy to repeal the provision of the Panama canal act exempting from tolls American coastwise shipping, Senator Thornton, democrat, of Louisiana, in a statement yesterday, said the president had informed him that in "his judgment the repeal of the exemption clause is necessary for the continuance of our present friendly relations with foreign powers and the success of our foreign policy."

Senator Thornton is a member of the inter-oceanic and canal commission, which urged toll exemption, and he is one of the more democratic members of that committee who have told the president they would reverse their former enforcement of that right to toll exemption.

"I believe now just as firmly as before," continued the senator, "that the exemption clause of the Hay-Pauncefote canal act is not a violation of our treaty obligations, but I recognize now, as I always did, the substantial right between our right of exemption and our enforcement of that right to toll exemption."

Administration leaders in the senate believe that the repeal will carry by a substantial majority despite some party opposition, and it is also believed that the matter will be up for action within two weeks. Representative Adamson expects to introduce a repeal bill in a few days.

AMERICANS GOING TO PEACE RIVER

Pouce Coupe Settler Meets Four Hundred Teams on Way Up.

ENORMOUS CROP EXPECTED

Most Incomers Take Stock, Machinery and Cash With Them.

T. F. Haskins, a settler of the Pouce Coupe country, west of the Pouce Prairie district, and partly in British Columbia, is at the Royal George hotel.

He stated this morning that "an enormous influx of settlers had already begun to go into the Pouce River country in readiness for this year's work, and the crop harvested there next fall should be much larger than last season."

Between Edmonton and Grande Prairie he passed at least 400 teams going north, he says, and he found 25000 full of new waiting for supplies. The mild weather has made the trails hard, particularly for the first 80 or 90 miles out of Edmonton.

Most of the settlers going in this year are Americans, with plenty of live stock and machinery and very few dollars of cash. They will adapt themselves to conditions almost at once, and the producers of the very first year after settling.

The city of Winnipeg will memorialize the dominion government during the course of the next week or two, that a royal commission be appointed to investigate the cause of the dominion-wide unemployment, according to J. C. Wardsworth of Winnipeg, who is here studying labor conditions. This motion, which was passed unanimously, was brought about at the request of a delegation from the trades and labor council on February 23, which was headed by the president, J. W. Johnson, and accompanied by J. R. Woodworth of the associated charities and the Canadian Welfare League.

Mr. Johnson stated that the trades and labor council had passed a motion asking that the city council should petition the dominion government to appoint a royal commission to investigate the cause of the present unemployment, and that the city council should also appoint a responsible man in the government, he said, had made the statement that there were 100,000 men out of work in the dominion, and he believed this was true.

A REAL NERVE AND BODY-BUILDING MEDICINE

We believe Bessell Olive Oil Emulsion is the best remedy made for toning the nerves, enriching the blood, building up wasted tissue, renewing health, strength and energy—the best medicine you can use if you are run-down, tired-out, nervous and debilitated, no matter what the cause. It doesn't depend for its good effect upon alcohol or habit-forming drugs, because it contains none. It may not make you feel better in a few hours, but it will make you feel better in a few days, just as soon as the tonic and food properties it contains have a chance to get into the blood and, through the blood, into the rest of the system. Pure Olive Oil and the Hypophosphites have long been endorsed by successful physicians, but here they are combined into one preparation which, as a nerve-food and a builder of strength and health, we believe, has no equal.

If you don't feel well, begin taking Bessell Olive Oil Emulsion today, and build your health and strengthen your system against more serious illness. To convalescents, old people, young children and all others who are weak, run-down or ailing, we offer Bessell Olive Oil Emulsion as the best remedy you will find. It will not only make you feel better, but it will also make you stronger. It will not only make you feel better, but it will also make you stronger. It will not only make you feel better, but it will also make you stronger.

Ottawa, March 2.—The Asiatic problem as it affects Canada, and more particularly British Columbia, was the subject of an extended debate in the commons yesterday. Hon. Frank O'Connor started the ball rolling by moving for the order-in-council passed on December 31st, prohibiting the entry into British Columbia of Chinese laborers, and on March 21st of laborers and artisans.

Hon. Rodolphe Lemieux spoke in praise of the Japanese as a nation. He said that they could not be kept out of the country, but that something restricting the number of arrivals each year was a good one, and should be continued. As to the Chinese, it was to be remembered in considering their case that they were British subjects.

H. H. Stevens (Vancouver) spoke at length in favor of a policy of exclusion insofar as possible of Asiatics.

W. E. Kinch (Montreal) said that the conservatives in power had completely reversed their position.

Hon. J. D. Doherty reviewed the legal aspects. The judgment of the judge in the case of the Japanese was that the order-in-council was valid, but that the government was not being deported under the immigration act, inasmuch as the order-in-council was not a law.

IF KIDNEYS ACT BAD KIDNEY SALTS

Says Bachache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority.

Most forms of acid which overwork the kidneys in their effort to filter it from the blood and they become sort of paralyzed and clogged.

When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizziness, your stomach roars, tongue is coated, and when the waste is had you have rheumatic twinges.

The urine is the channel of exit for the waste, and if it is not free, the waste will build up in the system, and you will have all the ailments of a clogged system.

Either consult a good, reliable physician at once, or get from your pharmacist about four ounces of Kidney Salts, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act freely.

The famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to cleanse and stimulate sluggish kidneys, so to neutralize acids in the urine so it no longer irritates, thus enabling the kidneys to work freely.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot be habit forming, and is a delightful, effervescent lithia-water drink.

GARRAUNA REVEALS THE POWER OF THE FLOWERS

States They Should Address Him About the Welfare of Their Subjects.

EVERYTHING DEPENDS NOW ON ATTITUDE OF ENGLAND

If No Demand for Immediate Reparation United States Will Wait.

Washington, March 2.—President Wilson revealed to those who discussed Mexican affairs with him yesterday that he had fully realized the gravity of the situation resulting from the killing of Wm. S. Benton, a British subject, the reported murder of General Huerta and General Carranza's denial of the right of the United States to look after the interests of foreigners in Mexico.

The famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to cleanse and stimulate sluggish kidneys, so to neutralize acids in the urine so it no longer irritates, thus enabling the kidneys to work freely.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot be habit forming, and is a delightful, effervescent lithia-water drink.

Great Britain's Attitude.

Upon Great Britain's attitude toward the Benton case depends largely the extent to which the United States will become involved. Should England show an inclination to let the United States have a final adjudication at a time when a firm government is established in Mexico the United States will not feel called upon to challenge General Carranza's refusal to supply the Washington administration with information about Benton's death.

Representations have been made to General Carranza, it is understood, through the American Consul at Tampico, and on their outcome depends whether or not the expedition which is planned to go to Chihuahua from Juarez Sunday to examine Benton's body will carry out its mission.

However, the decision that foreign governments should address him about the welfare of their subjects is a promise to Secretary Underhill yesterday by Sir Cecil Spring-Rice, the British ambassador, and Señor Carranza, the Mexican president.

Spain and Great Britain have recognized the Huerta government and have been looking to the United States for recognition of the Carranza government.

WOMEN WILL NOT BE SATISFIED UNTIL THEY SEE THE KING

London, March 2.—Mrs. Duffe Fox informed a meeting of suffragettes here yesterday she had delivered Mrs. Emmeline Pankhurst's letter at Buckingham Palace, under escort of a police officer, and refused to allow her to enter alone. Mrs. Pankhurst's letter asked the king to receive a deputation which desired to complain to him about the situation of the suffragettes.

MANY PROMINENT ENGLISHMEN SIGN SOLEMN COVENANT

London, March 2.—The Irish home rule movement is undergoing an important and rapid change, which is a compromise with an early appeal to the people as a result of the passage of the Home Rule bill. It is stated that the cabinet on Saturday decided what concessions should be offered to Ulster; that these were given to John Redmond, who, accompanied by a number of leading nationalist members, had a conference at Mr. Lloyd George's official residence with Lord Crewe and Sir Edward Grey last night.

It is stated that the result of this conference it is stated that an agreement has been reached between the cabinet and the nationalists, and that the commons for the progress of the financial business of the country, the cabinet has decided to accept the bill, which will be reintroduced next week.

MAN PLAYS FORMER WIFE SOURVY TRICK

Impediment to Marriage, Was Annulled by Courts and Church.

DECIDE TO WED AGAIN

Woman Gives \$1000 to "Fiance" Who Then Decides All Is Off.

Quebec, March 2.—The arrest of a commercial traveller named Gosselin on a charge of obtaining money on false pretences here, led to a sensational story in the court of sessions yesterday. The accused pleaded not guilty. The charge against him was that he had obtained money from a young woman of means, named Gaudet. Her story to the judge, was that she and the accused were married some years ago, but after a short time she discovered that there was an impediment to their marriage. They then appeared to the court, and had the marriage declared civilly annulled. The church authorities subsequently annulled it also. The parties then drifted apart, the woman going to the United States. At some time, the impediment to the marriage had been removed by the granting of a dispensation by the church. The parties again came together, and the man asked the woman that he would marry her again, provided she would give him \$1000. This she agreed to, and he gave her a check for that amount. All arrangements for the wedding were completed, but the woman alleges that the day before the proposed ceremony, the man informed her that he changed his mind about marrying and would not do so unless she gave him another thousand dollars. This she refused to do. Next day, the pair accidentally met at the bank where the woman said she had withdrawn \$1000 of it. She then told the bank manager not to pay the rest of the money to the accused, but the latter insisted on getting it. The manager then informed him that the money could not be paid except by order of the court. It was on the alleged fraud of the \$1000 that the charge of receiving money under false pretences was entered.

FOUR WINTERS OF RHEUMATISM

Cured of Stiff and Muscular Rheumatism By "Fruit-a-Lives"

RIDGEMONT, Ont., May 21st, 1913. "Fruit-a-Lives" cured me of Rheumatism. It was the only medicine that made any impression on me. I was a terrible sufferer from Rheumatism. I was laid up four winters from Sciatica and Muscular Rheumatism, and was completely crippled. Some neighbors of mine told me that "Fruit-a-Lives" helped him, and I started to take them. I used "Fruit-a-Lives" faithfully for two years, taking them every day as I saw they were doing me good, and the results were marvellous. For over two years, I have been completely free from any Rheumatic Pains whatever, and I give "Fruit-a-Lives" the credit. W. H. RACIER, Box 10, for \$2.50, trial size, 50c. At all dealers or from Fruit-a-Lives Limited, Ottawa.

S.O.S. Business Meeting.

Black Watch camp No. 102, Sons of Scotland Benevolent association, will hold its business meeting for the current month in the Mechanic hall on Tuesday evening, starting at 8 p.m. prompt. The officers request as full an attendance as possible. Members and friends are reminded also of the variety concert given by the Mackenzie-Glover, and friends, on Tuesday evening, in the old Presbyterian church, corner of Jasper and Third streets. The entertainment of a very high class is offered and is promised at the \$1.00. This she agreed to, and he gave her a check for that amount. All arrangements for the wedding were completed, but the woman alleges that the day before the proposed ceremony, the man informed her that he changed his mind about marrying and would not do so unless she gave him another thousand dollars. known string of hunters and jumpers are considered the best not only in Canada and the United States, but in the whole world. Special efforts are being put forth to induce Mr. Sifton to bring his string to Edmonton. This stable includes such horses as Confidence, The Wagon, Ironhorse, Hercules, Skyscraper and many other famous jumpers. Confidence holds the world's record at the present time, made in Ottawa in 1912. This record is for a jump of 8 feet 1 1/2 inches, in open competition. Confidence also defeated all nations at Olympia during the same year. All the other horses of the string are able to jump over 6 feet 6 inches to 8 feet whenever called upon to do so. Other spectacular performances by the horses of the stable include matched hunting teams ridden in costume, which will give competition in jumping, two and three abreast.

Although the coming horse show gives operation of a real pleasure to all horse lovers, as well as a competition which will test the mettle of the horses.

and much better results obtained. The move was agreeable to the board and will be undertaken, so that all material for examination at the health board will be given special consideration in future.

Medical Inspection of School.

Dr. Dunn was present and the matter of providing medical inspection for the children attending the Separate school in the city was considered. A resolution was passed in which it is suggested that the separate school board and the board of health arrange for a meeting in the near future when this matter may be taken up more specifically.

The move being made on account of the marked advantages afforded for the inspection of children of the Separate school by having the co-operation of the medical health department and the board of health working as a unit.

The scope of the work of Miss Jackson (Mam) was also considered, and it was decided that she should devote a portion of her time to the laboratory in operation at the health board, under the charge of Mr. Corbett. The University of Alberta is putting in a complete outfit consisting of everything modern for the analysis of all kinds and classes of materials, both liquids and solids, and with this equipment given by the department the city will be in a position to take care of the work along these lines much better than heretofore.

The full membership of the board of health was present last evening. Dr. Dunn was in the chair, other members being Mayor McNamee, Dr. Henson, Dr. Collins, A. J. Latornell, S. Charles Young, Dr. F. J. Macpherson, his services voluntarily to the board as secretary, M. S. Booth, the commissioner of safety and health, and present as well as Dr. Whitelaw, medical officer of health for the city.

for British subjects in the Mexican Republic is controlled by the constitution. "I would, therefore, sum up the situation by saying that if the United States thinks it proper to take further steps either on behalf of its own citizens or of a British subject we will gladly stand by the result. But if for reasons of its own the United States does not think it desirable to take such steps we must of course reserve to ourselves the right to secure reparation whenever it is in our power to do so."

"Our general policy towards Mexico and the Central and South American Republics is confined to commercial interests, which we keep within non-political limits. As a result thereof, all questions that arise between these Republics and ourselves are settled by diplomatic means or can be referred to arbitration. "But the recent death of a British subject and the refusal of the Mexicans to allow the circumstances to be investigated make it incumbent upon us to do what we can on our own behalf."

Assuming that the United States does not itself desire to take any responsibility for intervention, it has been urged upon us that we should take immediate action without, however, giving me any suggestion or indication of what our policy should be.

I must repeat what I said last week—that there is nothing we can do under the present conditions.

Government Not Control. "The government in Mexico city has control over the territory where the death of Benton took place, not over those responsible for his death. We cannot, therefore, under the present conditions, secure reparation through that government."

We have no intention of engaging in such a fantastic attempt as the sending of a force—which, to be effective, would have to be a very large force—into Mexico to take action in connection with the death of Benton. "Under ordinary circumstances we might have taken action at a point or by way of assistance to the contending party in North Mexico."

To take action that would possibly give rise to a war, we should take a step simply for the sake of appearing to do something, would be just as foolish as the sending of a force into Mexico to take action in connection with the death of Benton.

"But we do not intend to let the matter rest and so on as by any change of circumstances it is on our power to carry the matter further we shall take whatever steps may be practicable."

Tension is Loosened. Washington, March 2.—Sir Edward Grey's statement to the house of commons, as received here in news dispatches was read by President Wilson.

The Standard Bank of Canada

The Thirty-ninth Annual General Meeting of the Bank was held at the Head Office, 15 King street west, Toronto, on Wednesday, February 18, 1914, at twelve o'clock noon. A large number of shareholders were present.

On motion, Mr. W. F. Cowan, President, and Mr. E. A. Log, Chief Inspector, was requested to act as Secretary to the Meeting.

The following statement was presented to the Shareholders and the President and Vice-President, submitted the report and drew attention to the satisfactory increase in all departments.

The report of the affairs of the Bank at the close of its thirty-ninth year, ending January 31, 1914, exhibited, however, and indicates that its funds have been fully employed during the past year at remunerative rates.

The Net Profit, after making provision for bad and doubtful debts, rate of interest on unmatured bills under discount, exchange, cost of management, etc., amount to \$55,955,255, being at the rate of 21.15 per cent. per annum on the average paid-up capital for the year.

SAYS MISSION IS TO SEE EVERYONE INOCULATED HERE

Sir William Leishman States Prevalence of Typhoid Would Be Stopped.

QUOTES STATISTICS TO SHOW VALUE OF METHOD

In Boer War Thousands Were Saved by the Treatment He Advocates.

Toronto, March 3.—"I have been asked to recommend that you should inoculate the whole population of Canada with typhoid vaccine, and certainly see no reason why I should not do so."

This somewhat startling statement was made to a gathering of the medical fraternity in the Physics building last night by Sir William Leishman, famous physician, while lecturing on the value of inoculation in preventing typhoid fever.

"In my short stay here," he continued, "I have largely from typhoid in this country. I have heard that you suffer very largely from typhoid in this country; that it is, in fact, a scourge in some parts of the country and villages. If you inoculate the population so that they are exposed to the risk of being inoculated by me, I will be doing a great deal of good, and we can thus complete very valuable statistics."

Sir William gave details showing how the method of inoculation was first shown to be valuable. His first experience was in a large asylum, in Kent, England, and from the good results obtained there, he was led to think that the method was of the utmost value.

Later, in India, he was identified with the method in the treatment of soldiers. The nature of the vaccine was sterilized, typhoid bacilli. The first bacilli he collected was from a poor soldier boy, who died from typhoid. "He was just an unknown soldier boy," he said, "but he had been the means of saving hundreds, perhaps thousands of lives."

He gave statistics showing the value of the treatment in the case of the army in India. From 1890 to 1895 out of a total garrison of 3,000 men, an average number of cases of typhoid was from 1,500 to 1,600 yearly. The following table which he presented shows, he said, the positive results obtained in an experiment conducted by 25 medical officers on 10,514 men:

Inoculated	10,514
Cases of typhoid	25
Deaths	5
Not inoculated	8,500
Cases of typhoid	272
Deaths	49

LIABLE TO BE A SHORTAGE OF MEN IN MEDICINE HAT

Medicine Hat, March 3.—Henceforth no more may the city laborers in medicine hats and a smoke while they are working and no longer will they be given any shadow of a chance to loaf on the work. An order went forth yesterday that all smoking during working hours must cease among city employees and to the foremen went the order that all loafers must be at once fired.

In speaking of this action, Mayor Brown stated that in the city at the present time there are plenty of men willing to work without smoking and the city is losing a large amount of money by paying employees to stop work to roll cigarettes.

STANDARD BANK HAD GOOD YEAR

Net Profits After Paying All Expenses Over Half a Million.

NEW BRANCHES OPENED

Annual Contribution to Officers Pension Fund to Be Increased.

Most satisfactory in every respect was the annual report of the Standard Bank of Canada, which was presented to the shareholders at the thirty-third annual meeting yesterday. Increases in all departments are noted from the financial statement, which exhibits a substantial growth in all branches and indicates that all its funds have been fully employed during the past year, at remunerative rates.

After making provision for bad and doubtful debts, rebate of interest on unremitted bills under discount exchange, cost of management, etc., the net profit amounted to \$550,000, which is equal to 21.16 per cent. on the average paid-up capital for the year. During the year four quarterly dividends were paid at the rate of 32 per cent., amounting to \$34,750. There was contributed to the officers' pension fund \$15,000, transferred to reserve fund from profits \$200,000, transferred to reserve fund from premium on stock \$420,000, and a balance of profit and loss account carried forward was \$212,317. It was decided to increase the annual contribution to the officers' pension fund, which was \$10,000, to \$12,000, and the balance of the effect will be approved later on.

During the year eight new branches were opened, and mention is made that the staff have discharged their duties faithfully and efficiently. G. T. Charlton was appointed for the office of auditor of the bank for the year.

Later, in India, he was identified with the method in the treatment of soldiers. The nature of the vaccine was sterilized, typhoid bacilli. The first bacilli he collected was from a poor soldier boy, who died from typhoid. WIDE OPPOSITION TO "BLUE SKY" LAW

Claimed That Sunday Closing Law Imposes Hardship on Public.

THOUSANDS SIGN PETITION

Request Attorney-General Not to Prosecute Sunday Storekeepers.

An organized movement is on foot throughout the province, supported by thousands of people, to induce the attorney-general's department to refuse to issue fines for the prosecution of those storekeepers who make a practice of keeping open on Sundays.

"It is claimed that the laws under which such prosecutions can be instituted are of the 'blue sky' variety, and that closing of stores such as ice cream parlors, confectioneries and so on is unnecessary, hardship on the public."

Printed forms for petitions are being circulated throughout the province and are being widely supported. In Calgary no less than 18,000 names have been signed to them and proportionately large numbers in other parts.

"The petition, which is addressed to the Hon. W. C. Bennett, attorney-general, reads as follows:—

"Dear Sir: We, the undersigned residents of the Province of Alberta, feeling the disadvantage of having all confectionery and ice cream stores closed on Sundays, hereby petition you to please withdraw the embargo on Sunday selling as far as fruit, confectionery, ice cream and other articles are concerned, as we feel that the restriction on the sale of these articles is a hardship on us, the general public."

MGR. KENNEDY'S ASSAULT CASE IS HEARD IN COURT

Montreal, March 3.—George Kennedy, manager of the Canadian Hockey club, pleaded not guilty today to charges of having assaulted Louis Dandaneau, one of the referees of the Saturday night game between the Canadiens and the Montreal Canadiens. He was allowed to go on parole, to appear tomorrow.

He was charged with striking Dandaneau on the head with a fist, and with having assaulted Kennedy. Dandaneau will enter a civil suit against him for slander as a result of remarks that were made by Kennedy when the assault was committed.

Football Meeting Tonight.

The annual meeting of the Edmonton Association Football league will be held this evening at the Y.M.C.A. at 8:30, when representatives from each team, or intending teams, are requested to be on hand for the purpose of discussing the season's business.

Have been eliminated from different competitions.

The Winnipeg entries have been attracting a great deal of attention by their good work; in the morning draw Gourlay, Leggett and Campbell all won their games, but in the afternoon draw the Campbell four went under to Billy Youhill's rink, after an exciting finish. The feature of the game of the morning was the meeting of Campbell and the Vancouver crack, the rinks were ever up and going home, and the Winnipeg ship had to go through a narrow port to win out by the narrow margin of one.

In the afternoon Youhill secured a big lead on Campbell early in the game and after the Winnipeggers had evened the count on the Campbell rink, the Vancouver man won the struggle with his last shot, score 10 to 3. Leggett of Winnipeg lost his second game of the day to Black of Vancouver. The meeting of the two well-known skips, Billy Whalen of Vancouver and Sam Savage of Calgary, attracted a large crowd, but the local man won out easily by the count of 12 to 7.

Sixty-four rinks are entered in the various events, and of these forty-two are from outside points, which should result in them being able to select ten strong aggregations to stack up against a like number from Vancouver in the city vs. all comers match today.

HENRY C. FRICK IS

FEDERAL LEAGUE

Pittsburgh Millionaire Will Back
Team in His Own Town—
"Matty" Signs Giants.

Chicago, March 2.—President Gilmore, the Federal league, announced last night that "A. Pittsburgh millionaire" had decided to become backer of the club in his town. Stories that Henry C. Frick, of Pittsburgh, had seriously contemplated taking an active part in the national game have been current for some time, and though Gilmore would not say Mr. Frick was the man, followers of the game here believe he is the one.

The announcement was made after a conversation over the long distance telephone between Gilmore and R. A. Kerr, of Pittsburgh, in which the latter is said to have promised that the deal would be closed on Thursday in New York.

The telephone conversation led Mr. Gilmore to declare any attempt by organized ball to sign players already signed by the Federal would be the beginning of a war that would threaten the foundations of the organized game. This statement was made in answer to questions concerning the reported defection of Pitcher Handing who, it was said, had finally agreed to join the Cleveland club, despite his contract with the Federals.

It leaked out today that Tom Seaton, the pitcher, last year with Philadelphia would join the Chicago Federals. It was understood the Brooklyn club was to get Seaton but the allotment on Saturday gave him to Tinkers club.

Ground will be broken for the local federal league plant Wednesday. President Westman said today, the contractor agreed to have the stand finished by April 21st.

Much discontentment was shown by the Federal managers when it was learned that Christy Mathewson had signed a contract with the Giants and had not waited for their offer of \$45,000 for three years, made today in a telegram by President Gilmore.

Intermediate Finals.

The Calgary Vics and Lacembs are now drawn for the intermediate hockey finals of the province, the Calgary team having beaten Banff last night 6 to 2 and win the round 8 to 5. The first game of the finals will be played in Lacombe Wednesday and the final in Calgary Friday.

DOMINIONS MEET
ESKIMOS IN FIRST
FASHION CRAFT

Wednesday Night at Arena
Will See Old Rivals Clash
Once More.

Having received no further word from Trustee Northey regarding the Allan cup games, the Dominions and Eskimos will meet tomorrow night in the first of the Fashion Craft cup games at the Arena rink. The plan of the game is to be between DeChene & McNeill's clear store and a large attendance is expected. The Dominions are hard at work keeping themselves in perfect condition to meet any or all obstacles in their pursuit of the Allan cup.

Tomorrow night's game should be equally as good as any seen this winter, as the big ice sheet at the Arena has kept in splendid condition and will be in good shape for tomorrow night. The game is called for 8:30.

Battlefield Swamp.

Regina, March 2.—Battlefield, winners of the northern district, proved the roughest kind of a mark for the Victorians last night in the first game of the home series, the score being 14 to 0. With several Ottawa players in its line-up including Fournier, much sought for by the big pro teams, Battlefield was somewhat feared especially in view of the fact that it was the Vics fourth game in a week. But the local speed boys simply smothered the northerners. Half time score 6-0.

TRADES AND LABOR COUNCIL ENDORSES RESOLUTION AGAIN

Organized Attempt to Discredit Secretary Farnilo's Action Comes to Naught

VIEWS ARE EXPRESSED ON POLITICAL CHURCHES

Say Recent Events Show Preachers Taking Part in City Politics.

What was described as an organized attempt on the part of some of the elements in the conservative party to discredit the trades and labor council took place last night at the regular meeting of that body, when Delegate Elliott, criticized Secretary Farnilo's attitude at the recent meeting of the city council in regard to the resolution passed at the last trades and labor council meeting on the question of the petition to investigate the police force. After Mr. Farnilo had read a letter from the city clerk acknowledging receipt of the resolution and informing them of its disposition, Mr. Elliott asked him if the statements in the daily press of his speech at the city council meeting were true. It will be remembered that Mr. Farnilo used the word "parasite" in his address, and that in reply to Mr. Elliott that he had not said that ministers were parasites, but that he had applied that word to people who lived by doing labor. A rather hot discussion followed. Mr. Elliott stated that Mr. Farnilo had expressed his socialist views, but to represent the trades and labor body.

No Political Opinions.
Mr. Farnilo, in defence of his action, said that he had not expressed any political opinions, and had so stated before making the opinions of the council known. He had been justified in the use of the word "parasite" as the resolution which had been unanimously passed by the council had used the very same word. Only two delegates supported Mr. Elliott, one of whom was a new member to the council and the other not being present at the meeting at which the resolution was passed.

Another side of the opinions of the workers of the city regarding the question was presented with the hearing of a resolution passed by the carpenters and joiners' union, which upheld the action of the council in regard to the petition for a police investigation. It read in part as follows:

The day has passed when this city or any other city should be governed by the church either directly or indirectly, and whereas recent events show that the church is taking a very active part in politics, which part is and has been directly against the interests of the workers who produce all wealth. Therefore be it resolved:

The council endorses the efforts being made by the local blacksmiths' union to secure shorter working hours, and passed a resolution asking for a bylaw on the matter.

The secretary report made mention of the benefit concert held on Sunday night in the Pantages theater in aid of the striking British Columbia miners, and the trouble which the Edsall Press, Limited, had with the bookbinders' union.

A delegation of osteopathic physicians came before the council, offering them a hospital along the same lines as the one recently made by the medical doctors. Drs. Ghosly and McPhaden spoke.

Upon recommendation of the hotel and restaurant employees' union, the following places were declared unfit to be organized labor: Edgins, cafeteria, downtown, cafe, Royal, Palace, cafe, Alberta hotel and all Oriental cafes.

How to Make
Better Cough Syrup than
You Can Buy

A Family Supply, Saving \$2
and Fully Guaranteed.

Sixteen ounces of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly than this ending inside of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, bronchitis and other throat troubles. This two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2½ cups of Elix. (Elix. cost worth) in a 16-ounce bottle, then fill. Take a teaspoon every 2½ hrs. two or three hours.

For the sake of her own peace of mind, as well as to stop the scandal, Clara beseeches Charles to take to himself and to leave up looking in another part of the town. One day a gossiping neighbor calls and deeply wounds Clara by referring to the old boy affair. Clara is found in the arms of her husband, George, and confesses to him all that she has heard of the love affair. George is so much better, is brought with much embarrassment by him and Clara. Living in the same house, they are naturally thrown much together, and soon gossiping tongues spread scandal of the young couple.

Theatres and Picture Shows

ENGLISH SUCCESS
"THE QUAKER GIRL"
EMPIRE THURSDAY

Be prepared, oh ye feminine hordes, who aim at polished honor and other spheres of usefulness, that the old-fashioned ones ascribe to women to doff your hats to the venerable art of dressmaking, for it is held up to the world on no less conspicuous a platform than that of the modern theater, to be at the very root of all progress, social, political, or any other kind. In "The Quaker Girl" the great three-act English musical play which comes to the Empire theater Thursday, Friday and Saturday night, is filled with maxims on Saturday, there is in the second act a Parliarian dressmaker's salon, where exquisite gowns are displayed on lovely models, and the mistress of the salon is Madame Bunt, played by Mlle. Andre Coray. Mlle. Coray is very much in love with her role simply for the joy she gets out of handling these lovely costumes. According to her, the world over a deluge of gratitude to the makers of beautiful clothes. "Who doesn't enjoy looking at beautiful clothes?" says Mlle. Coray. "And what is more fascinating than a costume designed to set off to the best advantage the lines of the human figure, in colors that suggest flowers in spring and softness of texture that bring back again childhood visions of fairy gossams. A beautiful woman beautifully dressed, is a sight to gladden the gloomiest of days, and is the one bit of silver that shines through and brightens the lives of care-worn mortals. Of course, it doesn't mean the kind of dressing that is only for display and to attract attention, but rather that which is beautiful, harmonious colors and attractive arrangements, which, added to immaculate treatment, will make of the most modest costume a thing of beauty and a joy to all concerned."

"VENOMOUS TONGUES" FOR LAST TIME TODAY AT EMPRESS THEATRE

"Venomous Tongues" is an appropriate title of the star feature of the program that closes with today's performance, at the Empress Photo-play Theatre. The story is built up from the evils of scandalous gossip that leaves in its wake ruin and oftentimes destruction. To those who like strong photo-play with pretty scenery and essentially human, will be immensely pleased with this feature picture.

Charles Raleigh is a cousin of Miss Clara Bunt and he is seen in love with her. She returns his affection in secret also. Time passes and George and Clara love to love. She considers his proposal of marriage long and seriously and makes entry of it in her diary. After this time Charles is called to America to look after his mining interests. He arrives in America and finds his father as the result of a terrific conflagration that has swept his property. He finds the battle difficult.

Meanwhile, believing Charles infidel, Clara is very unhappy. George receives a letter from Charles, saying that he has been given up the battle in America, and is willing to accept any position that George might offer. Despite the remonstrances of Clara, George invites Charles to come and live with him. His arrival, two weeks later, is fraught with much embarrassment by him and Clara. Living in the same house, they are naturally thrown much together, and soon gossiping tongues spread scandal of the young couple.

HEART INTEREST STORY FEATURES AT BIJOU THEATRE

The Bijou offers a splendid program in its show ending with today's playing. A film with a fine bit of interest, a screwball comedy and Pathe's Weekly of world's events in pictures, constitute the program.

"Giovanni's Graduation" leads as the feature, it is a splendidly balanced story and excellently acted. The story tells of George Rastin, the superintendent of a large factory, saves a young Italian from an attack of a street gang, and later, when the boy needs employment, finds a place for him in the plant. Giovanni overhears two Italian high alter, when the boy needs employment, finds a place for him in the plant.
